Media Kit: 1% for the Planet with IronPDF

At Iron Software, we believe in using technology not just to innovate but to make a difference for our planet. Starting in January 2025, we're excited to partner with **1% for the Planet**, committing **1% of every IronSuite purchase** to impactful environmental causes. Together, we're building a better future for people and the planet. 🌍

Why This Matters:

- **8 million tons of plastic** enter our oceans every year, that's equivalent to a garbage truck's worth dumped every minute.
- Oceans absorb **23% of carbon emissions**, but rising temperatures threaten their critical role in protecting us.
- **1 million species** are at risk of extinction in the coming decades without immediate action.

Who Is Iron Software and what's our role?

Iron Software is a global software company dedicated to creating solutions that empower developers while supporting environmental sustainability.

- Since 2022, we've embraced environmental responsibility, raising **over $58,000 for TeamSeas** to remove plastic waste from rivers and oceans worldwide.
- Starting in 2025, **1% of all IronSuite sales** will go to **1% for the Planet**, helping vetted nonprofits tackle **climate change, biodiversity loss, and sustainability efforts**.

What Is 1% for the Planet?

1% for the Planet is a global movement of businesses and individuals committed to giving back to the environment.

- Founded by **Yvon Chouinard**, the visionary behind Patagonia, the organization ensures every dollar supports **vetted nonprofits** making measurable impacts.
- To date, members have donated over **$450 million** to support projects addressing climate change, conservation, and sustainable development worldwide.
